ABOUT US

Bay Cremation Care is a locally owned funeral company aimed at low-cost, professional, cremation services. The team at Bay Cremation Care are all fully qualified Funeral Directors and Embalmers, but with a difference: we are on your side, we care for you and your budget. No need to pay huge sums of money for a loved one's funeral – we cut costs, not service. Rest assured you and your loved one will be looked after by caring and qualified professionals. Bay Cremation Care are proud members of the Funeral Directors Association of New Zealand (FDANZ). While it is important to carry out a loved one's final wishes, every person grieves differently and it is important to consider how family members and friends will deal with their grief. An alternative low cost option when you choose a cremation, is to have a private gathering with family and friends or a memorial service at a later date.
